WELCOME TO CAPEU

University of Business and Science

UNIVERSITY OF BUSINESS AND SCIENCE, TASHKENT, UZBEKISTAN

The University of Business and Science (UBSU), located in Tashkent, Uzbekistan, is a non-state higher education institution founded in 2022 with the strategic goal of providing high-quality education and training well-rounded professionals through a strong integration of science, research, and practice. Licensed by the Ministry of Higher Education, Science and Innovation on October 5, 2022, the university initially began with seven undergraduate programmes and has since expanded under new licensing to offer a wide range of bachelor's, master's, and doctoral degrees. Degrees awarded by UBSU carry the same legal validity as those from state universities and are officially recognised across the Republic of Uzbekistan in accordance with the national Law "On Education."

Situated in the nation's capital, the university provides a dynamic academic environment that promotes innovation, leadership, and critical thinking while preparing students to meet the demands of an evolving global economy. With a rapidly growing student population and a commitment to academic excellence, UBSU continues to position itself as a forward-looking institution dedicated to shaping future leaders.

The Consortium of Asia-Pacific Education Universities (CAPEU) is proud to welcome the University of Business and Science as a valued member of its academic network. This membership reflects a shared commitment to advancing educational quality, fostering international collaboration, and strengthening global partnerships in higher education. CAPEU looks forward to working closely with UBSU to promote innovation, knowledge exchange, and transformative learning opportunities across the Asia-Pacific and beyond.

WELCOME TO CAPEU

MSU TAWI-TAWI COLLEGE OF TECHNOLOGY & OCEANOGRAPHY, PHILIPPINES

The Mindanao State University – Tawi-Tawi College of Technology and Oceanography (MSU-TCTO) is a constituent campus of the Mindanao State University System located in Boheh Sallang, Sanga-Sanga, Bongao, Tawi-Tawi, Philippines. The institution is committed to advancing academic excellence, research productivity, and community engagement while contributing to regional development through strategic partnerships and educational initiatives. Recent collaborations—including agreements with local government units and other academic institutions—demonstrate its active role in promoting marine biodiversity conservation, fisheries management, and inclusive development within the province.

MSU-TCTO has also gained recognition for its scholarly output and sustainability efforts. It ranked 46th among universities in the Philippines in the AD Scientific Index 2024, reflecting the contributions of over a hundred research experts, and achieved a place in the 2025 UI GreenMetric World University Rankings, emerging as the first institution from the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM) to be included. Through international memoranda of understanding—such as partnerships with universities in Brunei—the college continues to expand opportunities for joint research, training, and academic exchange.

The Consortium of Asia-Pacific Education Universities (CAPEU) is proud to welcome MSU-TCTO as a valued member of its growing academic network. This membership reflects a shared dedication to strengthening higher education, fostering international collaboration, and creating impactful opportunities for research, innovation, and knowledge exchange across the region.

Congratulations

UNIVERSITI PENDIDIKAN SULTAN IDRIS (UPSI)

on the remarkable achievements!
